SUMMARY

Full Stack MERN Developer skilled in MongoDB, Express.js, React.js, and Node.js with hands-on experience building scalable eCommerce and web applications. Proficient in REST API development, JWT authentication, Google OAuth, Redux Toolkit, Razorpay integration, and responsive UI design. Strong understanding of MVC architecture, CRUD operations, state management, and modern web development practices.

EXPERIENCE

Frontend Developer Intern

Sep 2024 – Dec 2024

InciLo Logistics Pvt. Ltd., Bhopal

- Developed responsive UI using React.js, HTML, CSS, and JavaScript
- Built reusable components to improve UI performance and efficiency
- Integrated REST APIs and handled JSON data effectively
- Optimized applications for mobile responsiveness and cross-browser compatibility

MERN Stack Intern

Aug 2025 – May 2026

Cybrom Technology Pvt. Ltd., Bhopal

- Built full-stack applications using MERN stack and RESTful APIs
- Implemented JWT authentication and CRUD operations
- Worked on API integration, routing, debugging, and application deployment

PROJECTS

BaseLayerCase – Full Stack MERN eCommerce Application

- Developed a scalable full-stack eCommerce platform using MongoDB, Express.js, React.js, and Node.js with responsive UI and reusable components
- Implemented JWT authentication, Google OAuth login, protected routes, cart management, and persistent state handling using Redux Toolkit and LocalStorage
- Integrated Razorpay payment gateway with secure payment verification, order processing, dynamic order tracking, and checkout workflow
- Built RESTful APIs and admin dashboard using MVC architecture for product CRUD operations, inventory management, order status management, and sales analytics tracking

Task Management System

- Built task management application with authentication and role-based access control
- Implemented CRUD operations and RESTful APIs for task and user management
- Designed responsive UI using Tailwind CSS with dashboard for task tracking
